

Ms. Swati Sharma
Associate Professor
Abhilashi College of Pharmacy

Academic Qualification: M. Pharmacy

Area of Specification: Pharmaceutical Chemistry

Experience: 10 yrs of teaching experience

M. Pharmacy Research Project: The Synthesis and Characterization of Novel Schiff bases of imide moiety as potent Analgesic and Anti-inflammatory agents.

Publications:

- Research on Synthesis, Characterization and Pharmacological Evaluation of Novel Schiff Bases Of Imide Moiety On The Journal Of Medical Science.
- A REVIEW: Synthesis and biological activity of Imides.
- Review On Origin, Genomic Structure And Replication Of Corona Virus And Covid-19
- Benzimidazole: A Review on Its Synthesis, Properties And Various Biological Activities.
- Acetylation of Histone And Modification Of Genes Expression Via HDAC Inhibition Affects The Obesity.

Presentation:

- Poster presentation on "Study of Synthesis of Imides and its various properties" at National Conference on Drug Innovation: Emerging Trends and Challenges on 10-11 Feb. 2012.
- Conference attended of "Pharma- Health Care Quality Concept" on 4th April, 2009.
- Poster presented on "Study on various biological activities of Schiff bases" at "Future trends in the upcoming pharma sector" on 18 March, 2012.
- Poster presented on International Conference "To synthesize schiff base derivatives of imides and to study their biological activities" on 21-23 March, 2012.
- Poster presented on "To study the synthesis of thiazole derivatives and their biological studies" on 4th May 2012.
- Second National Conference attended "Women Empowerment and Gender Equality in Digital India" on 2017
- Faculty Development Program attended "Innovative and Effective Teaching and

Research Skill in Pharmacy" on 20- 22 April 2018.

- International webinar on corona virus disease 2019 pandemic updates and Q&A session.
- Participated in two days national webinar on Leveraging Digital Initiatives of NMEICT, MHRD and Online Examination during Covid 19.
- Participated in national webinar on Challenges and Opportunities of Online Education in Pharmaceutical Sciences.
- Participated in two days international webinar on International Pharma Webinar on Skills and career Opportunities for Pharmacist A global Perspective.
- Webinar Attended research and social media.

Faculty Development Programme:

FDP attended on Innovative and Effective teaching and Research skill in pharmacy.

FDP attended on Current trends and futuristic challenges in pharmaceutical and healthcare sector.
